Certificate Reference Number:
void-void-void-void-void

This certificate indicates how much water is being used to operate this building. The operational rating is based on meter readings of all the water actually used in the building. It is compared to a benchmark that represents performance indicative of all buildings of this type.

Water Performance Operational Rating

This tells you how efficiently water has been used in the building. The numbers do not represent actual units of water consumed; they represent comparative water efficiency. 100 would be typical for this kind of building.

More water efficient

Less water efficient
